HEARING RESEARCH

Vol. 165, Nos. 1–2
March 2002

CONTENTS

Cited in: Biological Abstracts (BIOSIS); Chemical Abstracts; Current Contents/Life Sciences; Current Awareness in Biological Sciences (CABS); Excerpta Medica (EMBASE); Index Medicus; INSPEC; PASCAL M; Reference Update; Full text available in ScienceDirect® and Neuroscion

Research Papers

P. Wangemann (USA)
K$^+$ cycling and the endocochlear potential 1

F.A. Boettcher, D. Madhotra, E.A. Poth and J.H. Mills (USA)
The frequency-modulation following response in young and aged human subjects 10

Y. Li, D.A. Godfrey, M.A. Godfrey, D.-I. Ding and R. Salvi (USA)
Effects of carboplatin on amino acid chemistry in chinchilla cochlear nucleus 19

T. Tobita, M. Senarita, A. Hara and J. Kusakari (Japan)
Determination of prednisolone in the cochlear tissue 30

E. Soto, R. Vega and R. Budelli (Mexico, Uruguay)
The receptor potential in type I and type II vestibular system hair cells: a model analysis 35

A.C. Kierner, R. Mayer and K. v. Kirschhofer (Austria, Germany)
Do the tensor tympani and tensor veli palatini muscles of man form a functional unit? A histochemical investigation of their putative connections 48

A. Ekborn, G. Laurell, P. Johnström, I. Wallin, S. Eksborg and H. Ehrsson (Sweden)
D-Methionine and cisplatin ototoxicity in the guinea pig: D-methionine influences cisplatin pharmacokinetics 53

K. Sheykholeslami and K. Kaga (Japan)
The otolithic organ as a receptor of vestibular hearing revealed by vestibular-evoked myogenic potentials in patients with inner ear anomalies 62

B. Roß, T.W. Picton and C. Pantev (Canada, Germany)
Temporal integration in the human auditory cortex as represented by the development of the steady-state magnetic field 68

D. Huang, P. Chen, S. Chen, M. Nagura, D.J. Lim and X. Lin (PR China, USA)
Expression patterns of aquaporins in the inner ear: evidence for concerted actions of multiple types of aquaporins to facilitate water transport in the cochlea 85

Y. Wang and M.C. Liberman (USA)
Restraint stress and protection from acoustic injury in mice 96

J.I. Alcántara and B.C.J. Moore (UK)
The relative role of beats and combination tones in determining the shapes of masking patterns: II. Hearing-impaired listeners 103

H. Babkoff, C. Muchnik, N. Ben-David, M. Furst, S. Even-Zohar and M. Hildesheimer (Israel)
Mapping lateralization of click trains in younger and older populations 117

(Contents continued from back cover)

J.E. Hine and A.R.D. Thornton (UK)
Temporal nonlinearity revealed by transient evoked otoacoustic emissions recorded to trains of multiple clicks 128

B. Philibert, L. Collet, J.-F. Vesson and E. Veuillet (France)
Intensity-related performances are modified by long-term hearing aid use: a functional plasticity? 142

M. Matsuzaki and T. Murofushi (Japan)
Click-evoked potentials on the neck of the guinea pig 152

B. Pouyatos, P. Campo and R. Lataye (France)
Use of DPOAEs for assessing hearing loss caused by styrene in the rat 156

H. Wada, A. Takeda and T. Kawase (Japan)
Timing of neural excitation in relation to basilar membrane motion in the basal region of the guinea pig cochlea during the presentation of low-frequency acoustic stimulation 165

R.Y. Litovsky, B.J. Fligor and M.J. Tramo (USA)
Functional role of the human inferior colliculus in binaural hearing 177
